Course Description: This course supports teachers National Board Certification. Candidates will learn and apply the Five Core Propositions, National Board Standards for Teaching and the three types of writing expected as part of Board Certification.

Objectives:

- Define, identify, and practice the three types of writing: descriptive, analytical, and reflective.
- Review, critique, and provide constructive feedback to others
- Research best practices related to teaching content
- Review key content for the certification areas
- Discuss and apply “assessment for learning” in the classroom
- Create and analyze formative and summative assessments
- Review high impact classroom strategies for student engagement and questioning.
- Understand and apply the Five Core Propositions to teaching and learning
- Gather and analyze information about students’ strengths and needs and use that information to design and implement instruction to advance student learning and achievement.
- Analyze and reflect on teaching practices as a result of evidence obtained through student work.
- Complete components for which one has registered as outlined by the National Board for Professional Teaching Standards.

Registration Deadline: Prior to the first class
